## Where in The World Is Mr. Kenny?

### Where?

1600 Pennsylvania Ave. Washington D.C.

### What?

The White House

### When in history?

1800 - present day

### Why did you visit?

During a visit to Washington D.C. I stopped for a selfie in front of the residence of the President of the United States.

It isn't a very big building (even though we were led to believe that "it's HUUUGE!"), but so many historic moments have taken place within its walls.

### Interesting fact

When President Trump is on grounds, a mariachi band is payed to play around the clock outside of the White House

# Are You Smarter Than A 12<sup>th</sup> Grader?

## TRUE or FALSE

Reported By Ronald C. and Michael G.

- There was no World Series in 1994
- Before becoming queen, Queen Elizabeth was a mechanic
- Mario of Super Mario Bros. was once a carpenter

I may be wrong,  
but it's highly unlikely.
