CODE OF CONDUCT

2024 – 2025

Mission Statement

The mission of Little Flower UFSD is to meet the individual educational, social and emotional needs of all students. We seek to create a learning environment where our students foster the tenants of respect, responsibility, and self-worth so they can transition back into their community and take pride in their accomplishments.

Sanctuary Model

Little Flower utilizes Sanctuary, a trauma-based model that actively promotes healing through repairing, restoring, and rebuilding of relationships in a safe and caring environment for our staff and those we serve. When an organization makes the commitment to implement Sanctuary, it instructs leaders and community members not only in the treatment of students/clients, but also in creating safer, better-functioning organizations.

Dignity for All Students Act

The Dignity Act emphasizes the importance of tolerance and respect for others by students and staff alike. Therefore, all members of the school community, including essential partners such as superintendents, school board members, parents, students, teachers, guidance counselors, principals/administrators, support staff and other school personnel have particularly important roles to play in its implementation. **Students or a parent of a student who feels that they are a target of discrimination or harassment while on school property by any student/students or employee are encouraged to seek out assistance from whomever they feel most comfortable speaking with.** Any staff member who witnesses students being the target of discrimination or harassment or is told of a student being a target of discrimination or harassment must fill out the Little Flower DASA Reporting Form and submit it to the Dignity Act Coordinator. This form is kept in the school's main office. **The Dignity Act Coordinator is Robert Scappatore. Contact info is: rscappatore@littleflowerufsd.org, (631)-929-4300 x105**

The Dignity Act prohibits discrimination and harassment of students on school property, including at school functions, by any student and/or employee. However, harassment may include, among other things, the use, both on and off school property, of information technology, including, but not limited to, email, instant messaging, blogs, chat rooms, pagers, cell phones, gaming systems and social media websites, to deliberately harass or threaten others. This type of harassment is generally referred to as cyber bullying.

Discrimination

The Little Flower Union Free School district does not discriminate on the basis of sex, race, age, color, national origin or handicapping condition in the educational programs or activities which it operates, and it is required by Title IX of the Education Amendments of 1972 and Section 504 of the Rehabilitation Act of 1973 not to discriminate in such a manner. The policy of non-discrimination includes the following areas: recruitment and appointment of employees; employment pay and benefits; counseling services for students; access by students to educational programs, course offerings and student activities.

LITTLE FLOWER UFSD
BEHAVIOR SUPPORT ROOM DEFINITION AND PROCEDURES
(ACCOMPANYING DOCUMENT TO BOARD POLICY 7351)

Introduction and Context

Little Flower UFSD employs a seven-member team comprised of four behavior support team members and three security personnel. The roles of these individuals are defined in the Employee Handbook, updated annually. In summary, this team of professionals exist to support students and staff in ensuring a consistent learning environment for all through the implementation of research-based behavioral supports and interventions. One part of this model of support includes the use of a behavior support room, a multi-purpose location essential to the functioning of the school.

In accordance with 8 NYCRR – Section 200.22(c), Little Flower UFSD maintains records for all uses of time out rooms as noted in the referenced section. However, the term “time out room” itself carries with it a connotation which does not align with our multi-tiered approach to behavior management and support, including our Positive Behavior Intervention and Supports (PBIS) model; our trauma- informed organizational approach known as the Sanctuary Model; our therapeutic support model, Therapeutic Crisis Intervention; and our transformative approach to accountability, Restorative Justice Practices. Thus, this document shall serve as a procedural guide to the behavior support room.

Goals

The goals of the behavior support room are simple:

1. Provide a safe and supportive, temporary therapeutic setting for students to prepare themselves to reenter the learning environment and reengage academically, behaviorally, and social-emotionally;
2. Provide access to staff to support students throughout this process;
3. Assist students in returning to the learning environment within 10 minutes of entry, as appropriate and noted above; and
4. Document all services and supports to inform individual and programmatic decision-making.

Student Self-Referral

The behavior support room is many things to our students. Students may self-refer to the room to take a physical or mental respite when they are feeling stressed or triggered. Students may complete classwork assignments (with faculty approval) when the classroom environment is overstimulating to them. Students may also seek to spend quiet time in the room under the supervision of a behavior support team member, or may refer themselves for the purpose of seeking counseling or discussion with a team member or their assigned pupil personnel services staff (school) or mental health staff (RTC).

Outcomes from a self-referral may include the student returning to their classroom on their own accord, at the suggestion of a behavior support team member, or after following up with additional support staff. Behavior support may follow up with faculty or staff based on the purpose of the student visit.

Faculty/Staff Request

Students may also be requested to visit the behavior support room by faculty or staff when in a pre-crisis phase and demonstrating behaviors noted in an IEP or BIP as leading to aggressive or disruptive behavior, or when demonstrating aggressive or disruptive behavior. This *does not* constitute a formal referral requiring an office referral or behavior incident report, and is intended to provide students with the support to return to the learning environment in a quick and seamless manner.

Outcomes from a faculty/staff request may include those from a self-referral, with the addition of a follow-up from behavior support with the requesting faculty/staff to determine which, if any, follow-up supports are necessary for the student.

Faculty/Staff Referral

Students may be referred to the behavior support room by faculty or staff during demonstration of aggressive or disruptive behaviors which is accompanied by an office referral or incident report.

Students shall be accompanied by the referring staff or behavior support may accompany the student from the classroom. Supports will be provided in the behavior support room, with the goal to assist the student in returning to the classroom as quickly as possible without entering crisis.

Outcomes from a faculty/staff referral include those from a faculty/staff request, with the addition of administrative follow-up, Red Flag meeting, inclusion in a Restorative Justice activity, and/or consequences aligned to the Code of Conduct and incident report.

Crisis Intervention

When a student is in crisis and requires immediate intervention by faculty/staff and/or behavior support team personnel, the behavior support may be used as a safe space to implement therapeutic de-escalation strategies or, in the rarest of cases, physical restraints. In this event, the definition of a time out room as per 8 NYCRR – Section 200.22(c) would be met and appropriate documentation as per the regulation would ensue.

Outcomes from a crisis intervention may include a report to Justice Center and/or NYSED, consequence aligned to the Code of Conduct and incident report, referral to counselor and/or RTC mental health staff, or outcomes noted in the faculty/staff referral.

Behavior Support and Whole Child

In all instances, the purpose and goal of the behavior support room is to provide all possible supports to our students in an effort to therapize their behavioral, social-emotional, mental health, and academic needs, and to enable to student to return to the learning environment with a little disruption as possible.

This is achieved through a common understanding of the behavior support room, the role it serves across our multi-tiered support system, and how we can best serve students as a community to ensure we continually meet our vision for the district, *Dedicated to the Education of All Students*.

Dissemination

The behavior support room procedures shall be updated annually as necessary and included in the Parent Handbook, Student Code of Conduct, and intake packets for newly-accepted students.
