Dear Parents, Guardians, and Little Flower School Community,

The events surrounding our local schools over the past few weeks related to firearms in buildings have been both frightening and alarming. The safety of our students, staff and visitors is always a priority.

Currently, all students pass through metal detectors, and backpacks/lunchboxes and other items which present an opportunity for concealment are screened by our arrival teams. As a measure to increase the level of security provided to preserve the safe environment we provide, we will be implementing random scanning of students with metal detecting wands. Additionally, screening of visitors to the school will also be heightened.

While this may present a temporary inconvenience and longer time to access the building, we consider it a small tradeoff to ensure the safety of our community.

Should you have any questions, please contact the main office to speak to a member of our administrative team. Thank you for your understanding and cooperation.

Sincerely,

Little Flower Administration
