March 2016

Happy Spring

well, better late than never. Here is a short but interesting March Flower Buzz.

Showcase

By Nate and Mrs Sote

Showcase is where students show work or special projects that they are doing in school. It's a day where outside people and families come to celebrate what the students have done.

This year's showcase was a great success, students showed off amazing work with a variety of topics from social injustice to surviving a zombie apocalypse to job investigations to catapults and more! Nice going everyone!
