Student Leadership breakfast is Tuesday, December 22nd

Coming in January

Look out for information on our Martin Luther King Celebration (activities and contests)

The first edition of "The Big Adventures of Little Flower"

The December Busey

by Leif

welcome back to the Monthly Busey; this time I've got a treat for ya. I somehow managed to get an interview with Ms. Stachowski.

Merron: where are you from?

Stachowski: I was raised in Oneonta, New York, but have lived in Buffalo for the last 35 years. You can't blame me for all the snow we've had on Long Island the last couple of years.

Merron: How do you advance to the position of Superintendent, what experience do you have?

Stachowski: I taught math and science for 16 years, I became an Assistant Principal, then Superintendent; I've been in education for over 30 years.

Merron: what do you think we do well at L.F. and what needs to be improved?

Stachowski: I like how our building is looking clean, and staff have added their own touches to make it look inviting. I especially like how the majority of our students are so respectful of the differences of each student. We need to cut down on the wandering in the halls and we need to remember not to have headphones or electronics on in the hallways.

Merron: what are some of your duties?

Stachowski: I'm responsible for all the legal matters and follow-through of our district policies. I set the vision for the district and hopefully support the teachers, and staff in accomplishing that vision.

Merron: what do you do outside of school?

Stachowski: I'm very active: I cycle between 30 and 60 miles a day in summer, I hike, I take hot yoga, and jazzercise.

Merron: Any advice for the readers?

Stachowski: Be respectful when talking to others, regardless if you're staff or student.
